

we want to thank and congratulate the residents of the Thornblade Hills neighborhood for recently joining the Matthews Police Department Neighborhood Watch Program.

Participating in a Neighborhood Watch program is an important way for residents to take an active role in keeping their community safe. By staying alert, communicating with neighbors, and reporting suspicious activity, residents can help prevent crime and strengthen community awareness. It is equally important for our officers to have the opportunity to build a strong partnership with our residents. Working together as a team fosters trust, improves communication, and helps create a safer, more connected neighborhood for everyone.

If your Matthews neighborhood (zip code 28105 only) is not currently participating in the Neighborhood Watch Program, please visit the link below for more information.
